Are you a migrant worker in the United States? HERE IS WHAT YOU SHOULD KNOW ABOUT COVID-19:

The end of the emergency

- As of May 11th, 2023, COVID-19 will not be considered a public health emergency in the United States
- COVID-19 response programs will not continue operating like they did before.

The challenges

- COVID-19 has not disappeared; it continues to be a risk to your health.
- Access to tests, information, vaccination and services to mitigate infections and their effects may have a direct cost for people.

Stay informed and use available resources!

1 Continue taking protective measures in your workplace and your community:

The basic recommendations continue to be very effective: use masks, wash your hands, improve ventilation, avoid contact with infected people and keep a healthy distance.

2 Stay up-to-date with your vaccines against COVID-19 while they are still free and help your loved ones get vaccinated!

Stay up-to-date with the most recent vaccine recommended by the CDC, available for people six months and older.
